Subject: USS Reference Number: 18-0015
ACHD Reference Number: 20922
Sulfur Plant
USS Clairton Works

Dear Karen M. Sagel:

The attached form confirms our verbal report of the subject incident and satisfies the requirements of paragraph IV.8 of the Title V operating permit #0052 as issued on March 27th 2012.

I certify that based on the information and belief formed after reasonable inquiry, the statements and information in this document are true, accurate, and complete. Any questions concerning this matter should be referred to Jonelle S. Scheetz at 412-233-1015.

Sincerely,

A handwritten signature in cursive script, appearing to read "Michael S. Rhoads".

Michael S. Rhoads

NOTICE OF OUTAGE OF EQUIPMENT
ARTICLE XXI - SECTION 2108.1

1. USS Reference Number: 18-0015
ACHD Reference Number: 20922
2. Date & Time of Breakdown: Date: 03/12/18 Time: 0925 hours
3. Company Name: U.S. Steel Corporation - USS Clairton Works
4. Specific Equipment Involved or Affected: Sulfur Plant
5. BAPC Permit Number (if applicable): #0052
6. Location: Clairton, PA

Nature and cause of breakdown: The Sulfur Plant was out of service to repair a hole in the piping leading to the downriver gas line. As a result, the 40 grain H₂S limit at the Sulfur Plant was exceeded.

8. Identification of Emissions:

- A. Type(s) (CO, NOX, SO₂, Particulates, Hydrocarbons, etc.)
Elevated H₂S in the down river gas line system, causing increased SO₂ at points of combustion.
- B. Toxic qualities of each type (including its qualities as an irritant, and its potential for causing illness, disability, or mortality). SO₂ is an eye, nose, and throat irritant.
- C. Amount of each type emitted (or likely to be emitted).
Light

9. Measures taken (or to be taken) to minimize length of breakdown and amount of emissions, including shutdown or curtailment (or why it is impossible or impractical to do so).
The piping repairs were completed and normal operations resumed.

10. Facility back in operation - Date: 03/13/18 Time: 1201 hours
